## Experience

June 2023 - Present

Xprime Hardwares

### Chief Technical Officer (CTO)

As the CTO of Xprime Hardwares, a prominent hardware manufacturer and supplier from Jamnagar, Gujarat. I am currently leading a team of six skilled software developers in the creation of a fully customized website from scratch. Taking charge of the project, I am responsible for overseeing the development process, ensuring seamless collaboration, and driving the implementation of advanced features and functionalities. By leveraging my technical expertise and leadership, we are set to deliver a user-friendly and visually appealing website that will enhance Xprime Hardwares online presence and elevate the customer experience.

Aug 2022 - Oct 2022

Maqure Ventures Pvt. Ltd.

### Full Stack Developer

I played a vital role in the development team at Maqure, a reverse auction chemical marketplace startup founded by visionary entrepreneurs from IIT Madras. Together, we utilized the MERN technology stack to create a seamless platform where buyers post chemical requirements and sellers bid competitively. This experience strengthened my skills in full-stack web development while collaborating with talented individuals from a prestigious institution, resulting in a cutting-edge website.

Jan 2022 - June 2022

Techno IT Hub

### Frontend Web Developer

I contributed to Techno IT Hub, an Ahmedabad-based online service provider. As part of the team, we developed the website for CONTRAWEb, a construction-based startup. Our design showcased their offerings, facilitating seamless interaction with clients, highlighting my ability to deliver effective web solutions in collaboration with a dynamic team.

Dec 2021 - Jan 2022

Bolt IoT

### Software Web Developer

I developed the frontend of the INVENTROM website for Bolt IoT, an IoT devices and training company based in Bengaluru, Karnataka. Using basic web techniques, I created an engaging and user-friendly interface for the website.
